

GOWSICK KARTHIKEYAN

Chennai, India | +91-82484 41798 | gowsickkarthikeyan@gmail.com | linkedin.com/in/gowsickkarthikeyan

PROFESSIONAL SUMMARY

M.Sc. Data Science graduate with strong academic foundation and hands-on experience in data analysis, machine learning, and full-stack AI application development. Proficient in Python, SQL, Power BI, and MS Excel. Demonstrated ability to build end-to-end data-driven solutions, deliver actionable insights, and collaborate effectively in team environments. Quick learner with proven adaptability to dynamic, fast-paced settings.

CORE SKILLS

Programming Languages:	Python, .NET (C#)
Database:	SQL (MySQL, Relational Database Design)
Data Science & ML:	Machine Learning, Statistical Analysis, Data Wrangling, Predictive Modeling
Data Visualization:	Power BI, MS Excel (Pivot Tables, Charts, Dashboards)
Web & Frontend:	React.js, JavaScript, HTML/CSS, REST APIs
Tools & IDEs:	Jupyter Notebook, PyCharm, VS Code, Arduino IDE
Soft Skills:	Problem Solving, Team Collaboration, Analytical Thinking, Communication

EDUCATION

M.Sc. in Data Science	2024 – 2026
Bishop Heber College, Bharathidasan University CGPA: 7.4 / 10.0	
Bachelor of Computer Application (BCA)	2021 – 2024
Bishop Heber College, Bharathidasan University CGPA: 7.0 / 10.0	
Higher Secondary (HSC)	2021
Sri Bharathidasan Matric Higher Secondary School CGPA: 8.5 / 10.0	
Secondary School (SSLC)	2019
Subash Chandra Bose Matriculation School CGPA: 8.4 / 10.0	

ACADEMIC PROJECTS

AI-Powered Fitness Web Application	React.js JavaScript AI API
- Designed and developed an AI-driven fitness web application supporting 3+ personalized user goals including weight loss, muscle gain, and endurance training. - Integrated a conversational AI chatbot capable of handling 50+ real-time queries, delivering personalized fitness guidance and recommendations. - Built a progress tracking module to manage and visualize 100+ user data points, enabling performance insights through interactive data visualization. - Architected a responsive Single Page Application (SPA) with 4 core modules: Dashboard, Workout Plan, AI Chat, and Progress Tracker.	
SmartGuard – Arduino-Based Swimming Pool Monitoring System	Embedded C Arduino UNO
- Developed a real-time swimming pool safety monitoring system using Arduino UNO to detect abnormal water disturbances and enhance child safety. - Implemented sensor-based control logic to process vibration sensor inputs and trigger instant audio alerts via buzzer for early hazard detection.	

- Conducted rigorous reliability testing and scenario simulations to validate accurate detection performance under varied conditions.

CERTIFICATIONS

- AI for India 2.0
- Data Science and Artificial Intelligence
- Python Programming
- Web Designing and Development
